## LIMITED 1 YEAR WARRANTY

Pacer Pumps warrants its products to be free from defects of material and workmanship for a period of one year (12 months) of service, if the one year of service falls within 24 months from date of manufacture. The company warrants that its products at the time of shipment, will be free of defects of material and workmanship for normal use and service. This warranty will not apply or be extended to products subject to misuse, neglect, accident, or improper installation, or to maintenance of products which have been altered or repaired by anyone except Pacer Pumps or its authorized representatives. *The Buyer, or any person receiving such a product during the duration of the warranty, shall contact his/her Pacer Pumps dealer as soon as any defect occurs. Contact Pacer Pumps for the name and address of your nearest dealer.*

Certain components, such as mechanical seals, ceramic liners, impellers, volutes, pistons, hose, etc. may be subject to wear, and therefore, wear should not be misconstrued as to the existence of a defect and as such would not be included in a warranty claim, nor should it be implied that items such as this will last a year without occasional, or even frequent replacement depending upon the severity of the application.

Pacer Pumps sole obligation under the foregoing warranty shall be limited to (at its option) repair and replacement (and reship to the Buyer with transportation charges collect to anyplace in the U.S.) of defective goods provided that if the company is unable to correct a defective component part or product, the Buyer shall be entitled to elect a credit at the original buyer's purchase price. To return a defective pump, to return any parts for credit, or to obtain service information, contact the Service Department. After receiving permission to return merchandise, the Buyer is authorized to return the product to Pacer Pumps, freight prepaid. If the company determines that the warranty has not been breached, product will be repaired or replaced free of charge.

The company will not be responsible for any damage or losses, direct or indirect, arising from any cause whatsoever, nor for damage to equipment caused by outside influences including improper installation or modification, improper voltage supply, lightning, corrosive liquids, abrasive liquids, or careless handling, nor for labor, transportation or other damages incurred in the replacement or repair of defective parts. In these cases, repair will be subject to reconditioning charges in effect at the time.

Purchased merchandise, either as a complete product for resale, or components used in conjunction with Pacer Pumps manufactured products, carries the warranty of the respective manufacturer of such products or components.
